

9TH INTERNATIONAL SYMBIOSIS SOCIETY CONGRESS
July 15-20, 2018
Oregon State University
Corvallis, Oregon, USA

Abstract submission is now open!

Abstract submission: January 1 – March 1, 2018
Registration begins: February 15, 2018

Please visit the [ISS Congress 2018 website](#) to submit your abstract and for meeting info.

Follow ISS Congress 2018 on [Twitter](#), [Facebook](#) and [Instagram](#)

Thematic Sessions:

- Susceptibility and resilience of symbioses in the Anthropocene
- Ecology of Symbioses
- Mechanisms of host-microbiome interactions
- The host-microbe interface: signaling, recognition and regulation
- Tinkering with symbiosis: experimental insights into host-symbiont systems
- Rise and fall of symbiosis: evolutionary transitions
- New tools and approaches for studying symbiosis

Focused Sessions:

- Protist-host interactions (including corals, lichens, other algal host interactions)
- Fungal-host, symbiont-fungal interactions (including lichens, mycorrhizae, insects,)
- Bacteria-host interactions (including gut symbionts, plant epiphytes/endophytes, insect endosymbionts, chemoautotrophic bacteria-animal symbioses, luminous bacteria-animal symbioses)
- Virus-host interactions
- Microbe-microbe interactions

Some travel awards will be available to students

Consider submitting your work to [Symbiosis](#), the journal of the ISS.
Watch the website and follow social media for updates. I hope you can join us!

Sincerely,

Virginia Weis
9th ISS Congress Organizer
Professor, Oregon State University
